About Maytronics

Maytronics France manufactures its automatic pool covers in the South of France, in La Ciotat.

Lean Manufacturing expertise and organisation enable Maytronics to guarantee impeccable quality and absolute respect for deadlines.

Our automatic covers are made-to-measure, and each project is the subject

of an in-depth study and technical feasibility validation by our design office.

Every day, our designers and engineers create and test innovations that enable all our customers to enjoy themselves in an exceptional way.

We supply high-quality, made-to-measure pool covers based on French expertise.

Discover a clear, diversified range adapted to every need, with a focus on aesthetics, design, safety and performance.

Maytronics

anniversary

AIR COVER 150

NEW

The Maytronics **Air Cover 150** is a modern, elegant, and innovative above-ground cover. Its sleek design integrates perfectly into any environment. Equipped with a fast motor, it can be operated using a key or a remote control in record time.

- > Sleek, robust and affordable design
- > Fast motor with mechanical limit switches
- > Metal support bracket
- > Full paint finish (available in 4 colours)

OPTIONAL

- > Many customizations
- > Bright lighting ambience
- > Remote control
- > MyCover application
- > Auxiliary contacts

4 color finishes :
White, light gray,
anthracite gray,
sand.

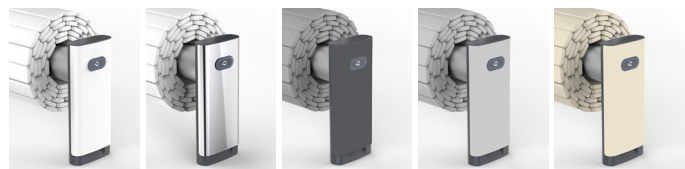

AIR COVER 200

The Maytronics **Air Cover 200** is a modern above-ground cover, available in five finishes. Equipped with a disengageable motor and an auxiliary contact, it can be easily operated with a contactless key or a Bluetooth remote control for simplified use.

- > An ultra-thin, harmonious, and modern aesthetic
- > Bright lighting ambience
- > Easy to use
- > Auxiliary contacts included
- > MyCover Application

OPTIONAL

- > Wall-mounted key switch
- > Bluetooth® remote control

5 colour finishes: lacquered white,
polished mirror, anthracite, grey and sand.

AIR COVER 300

The **Air Cover 300** by Maytronics is a premium automatic cover that combines safety, sleek design, and functionality. Available in three finishes (lacquered white, brushed stainless steel, and polished mirror stainless steel), it blends seamlessly into any environment.

white, brushed stainless
steel, polished mirror
stainless steel.

SOLAR AIR COVER 300

The **Solar Air Cover 300** pool cover is motorised and powered by solar energy, requiring no wiring. Quick to install, it is eco-friendly and meets the expectations of environmentally conscious consumers. Autonomous thanks to its high-performance solar sensor, it is reliable, economical, and environmentally sustainable.

- > Eco-friendly and economical
- > Durable, robust, and functional
- > Easy to use and install
- NEW** > Contactless key
- > MyCover Application

OPTIONAL

- > Bluetooth® remote control

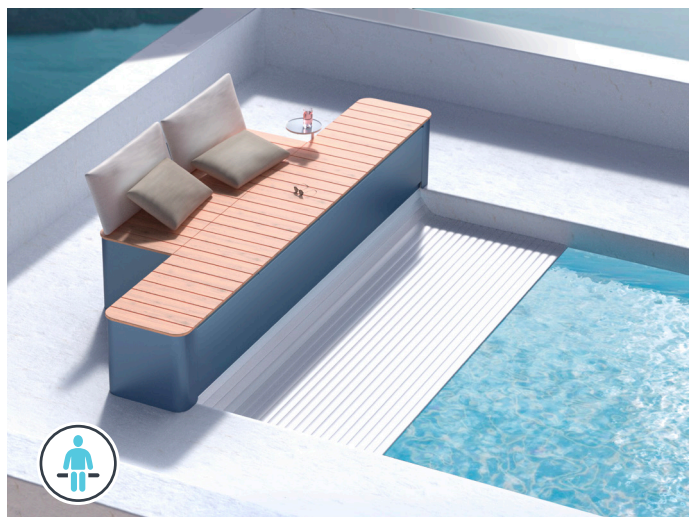

VARIANT

Available in a non-connected version with a mechanical limit switch motor.

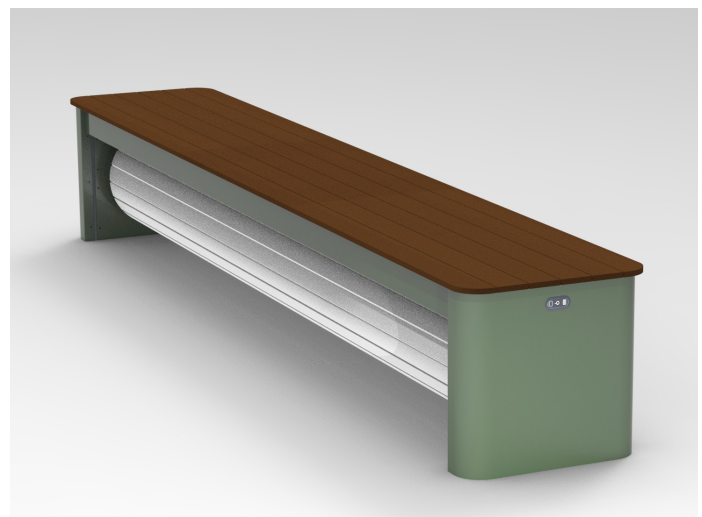

2 Colour finishes:
lacquered white, brushed stainless steel

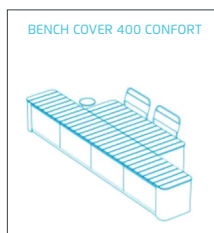

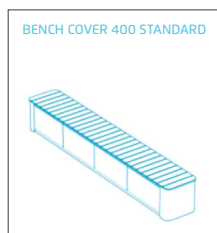

BENCH COVER 400

BENCH COVER 400 LIGHT

The **Bench Cover 400** is the new Maytronics pool cover. It has been designed for simple and quick installation. The Bench Cover 400 introduces a new relaxation space with a contemporary and modern style that combines comfort and safety, making it a true piece of furniture in your pool environment.

- > Design, comfortable and robust
- > 100% FSC wood grating
- > 100% lacquered metal cladding
- > MyCover application
- > Bluetooth® remote control

- > Contactless key
- > Auxiliary contacts included

OPTIONAL

Top or bottom LED illumination / Seat backrests / Comfort version extension

The **Bench Cover 400 Light without upholstery** is equally sturdy and comfortable. It has been developed for even greater simplicity and speed in assembly. It offers a cost-effective alternative while maintaining the same qualities of design, comfort, and durability.

DECK COVER 500

The Maytronics **Deck Cover 500** is a premium pool cover that is discreet and aesthetically pleasing, featuring a rolling mechanism concealed beneath a visible deck. Suitable for all types of pools, it is ideal for both new constructions and renovations.

- > Discreet
- > Compatible with all types of pools
- > Aesthetic
- > Multiple installation configurations
- > Auxiliary contacts included
- > Customisable finishes
- > MyCover Application

OPTIONAL

- > Motor in a dry pit or in the shaft

AQUATIC COVER 550 S-LIFT

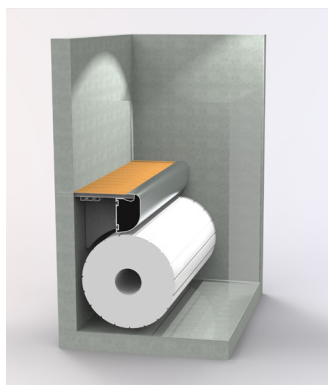

The Maytronics **Aquatic Cover 550 S-Lift** is a patented submerged cover designed to provide a clean, harmonious, and economical solution. Its compact half-grate design ensures discreet integration at the bottom of the pool for all types of pools up to 2m deep. Its innovative kinematics allow for a front exit of the cover, making it compatible with rear angles of up to 250 mm radius. Its monobloc design also makes it quick and easy to install.

- > Economical, space-saving solution
- > Clean, harmonious, modern aesthetics
- > Easy to use and install
- > Small customizable submerged deck, flush with the wall
- > Suitable for pools up to 2m deep

OPTIONAL

- MyCover application

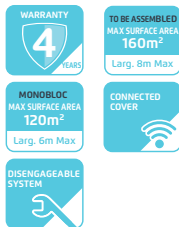

AQUATIC COVER 600

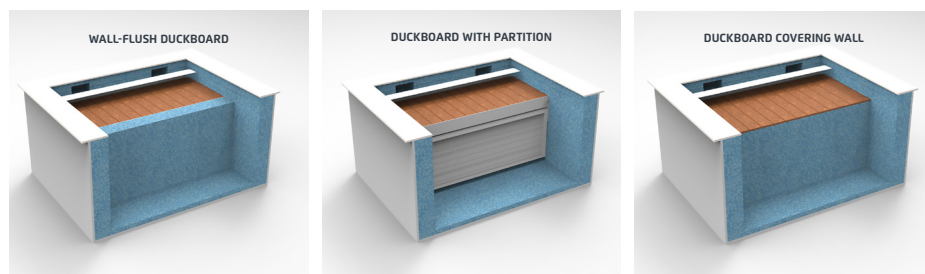

The **Aquatic Cover 600** by Maytronics is a submerged, secure, and elegant pool cover, featuring a rolling mechanism concealed beneath an adjustable submerged bench with three height settings: lying, sitting, and standing. Customizable and adaptable to all types of pools, it is easy to use thanks to the MyCover app and a remote control.

- > Discreet and aesthetic
- > 100% usable swimming space
- > MyCover application
- > Customizable
- > Auxiliary contacts

OPTIONAL
Dry pit or in-line motor.

Customize your cover

AQUATIC COVER 600 S-LIFT

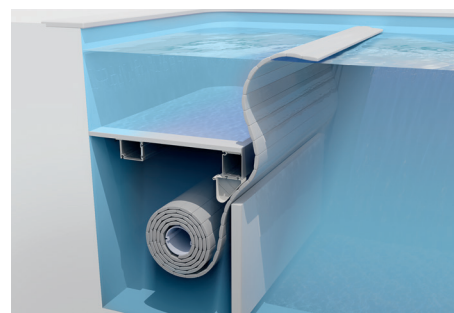

The **Aquatic Cover 600 S-Lift** by Maytronics is a submerged pool cover with an invisible mechanism beneath an adjustable deck, offering optimal swimming conditions. Its innovative kinematics enable the cover to deploy from the front. Equipped with stainless steel flanges and a waterproof motor, it adapts to all types of pools and linings thanks to its monobloc design.

- > Invisible cover mechanism
- > 100% usable swimming space
- > Compatible with rear angles with a radius up to 250mm
- > Compatible with all linings, including 75/100th and 85/100th liners
- > Full deck flush with the wall
- > Easy installation: monobloc solution
- > MyCover Application

OPTIONAL
> Bluetooth® remote control.
